## (2) BACKGROUND CHECK

When registering as a coach in step 1 above, you should have encountered a screen to complete your personal info needed by IYSA to perform a background check. If for some reason, you could not complete the background check part during your registration, you can login into your soccer account and do it in the "Background Checks" tab (see in GREEN below):

## (3) CONCUSSION TRAINING

Coaches need to login into their getsoccer accounts and take the online HEADS UP CONCUSSION TRAINING module. No one can coach on games or participate in without this course completed. Our academy manager can see if you completed the course and then he or she can assign you to your team officially (once the background check is approved).
